Education:

Full Stack Web Development, UCSD Extensions Program (Current)

Bachelor of Arts in Psychology, minor in Biology, California State University, Chico 2012

Technologies:

Javascript, jQuery, HTML/CSS, Node.js

Work Experience:

SearchAway!

<https://github.com/karlypaige/SearchAway>

Javascript, HTML/CSS, jQuery, Foundation Framework

- A website designed to find recommendations for books, anime, movies and video games based off of related searches.
- Passes genre and tags into api's to bring back relevant media
- Save searches
- Uses Open Movie Database, The Movie Database, RAWG Video Games Database, Google Books, and Jikan

Weather Dashboard

<https://github.com/btparker70/Weather-Dashboard>

Javascript, HTML/CSS, jQuery, Bootstrap

- A webpage that shows weather conditions for cities around the world.
- Shows current weather and 5-day forecast.
- Saves history
- Shows precipitation, wind and temperature conditions on map

Day Planner

<https://github.com/btparker70/Daily-Planner>

HTML/CSS, Javascript, jQuery

- Enter tasks for each hour of the day
- Live color-coding based on time of day
- Saves tasks upon refresh
